ADMIN CONSOLE GUIDE

The screenshot shows the 'ADMINISTRATIVE CONSOLE' interface. On the left, there is a section for 'Add new Administrator' with input fields for 'Admin Name', 'Admin Password', 'Admin Email', and 'Admin ID Number'. Below these fields are buttons for 'Add Admin' and 'Remove Administrator'. The 'Remove Administrator' section includes a text input field and a 'Remove Admin' button. On the right, there are checkboxes for 'Activate email alerts' and 'Enable Logging', along with a 'Test Email System' button. Red arrows point from text labels on the right to these specific UI elements.

ADD NEW ADMIN / SETUP (points to 'Add new Administrator' section)

CLICK TO TEST EMAIL SYSTEM (points to 'Test Email System' button)

CLICK TO ADD ADMIN (points to 'Add Admin' button)

ENTER ADMIN NAME (points to 'Admin Name' input field)

CLICK TO REMOVE ADMIN (points to 'Remove Admin' button)

ADD ADMIN OUTPUT:

A dialog box titled 'TonerHive' with a close button (X) in the top right corner. It displays the text 'Success!' with an information icon (i) to its right. Below this, it says 'Administrator successfully added to database.' and has an 'OK' button at the bottom right.

REMOVE ADMIN OUTPUT:

A dialog box titled 'TonerHive' with a close button (X) in the top right corner. It displays the text 'Success!' with an information icon (i) to its right. Below this, it says 'Bobby successfully removed from database.' and has an 'OK' button at the bottom right.
